Introduction

Cranbury College is an Alternative Curriculum Provider that offers education for students aged 5 - 19 who struggle to access mainstream education. Our provision includes, but is not limited to, the following:

- Primary, Key Stage 3 & Key Stage 4 Pupil Referral Units
- Post 16 Centre
- Special Educational Needs and Looked After Children Complex Package Provision
- Hospital Teaching Service
- Online Learning
- Medical Tuition
- Outreach Support
- Respite Programmes
- External Training & Support to Schools and Local Authorities

All students have Social, Emotional and Mental Health Needs, with the majority being excluded from school or unable to access special or mainstream education due to illness or individual needs. The school caters for students from Reading and neighbouring authorities and the pupils come from a variety of socio-economic backgrounds.

We believe that this Accessibility Plan is compliant with current legislation; the Equality Act 2010.

Local Transition Board/Local Advisory Board Members are accountable for ensuring the implementation, review and reporting on progress of the Accessibility Plan over a 3-year period.

Accessibility Plan Vision

Cranbury College is an inclusive organisation that aims to be accessible to all students. We have close links to the local community and external providers with a curriculum that provides challenging and stimulating learning experiences, with realistic yet high expectations and standards for all

The purpose of this plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities, and services provided
- Improve the availability of accessible information to disabled pupils

Our college aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

Our vision underpins everything we do; we are dedicated to offering every young person the opportunity to realise their potential, ensuring that every young person is at the centre of everything we do. At Cranbury College we guarantee a personalised learning service; a place where young people and families enjoy success every day. Our college is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

This plan will be made available online on the college website, and paper copies are available upon request and the college supports any available partnerships to develop and implement the plan.

Our college's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in college, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including staff, students, and the schools governing body.

Access to the Curriculum

We provide a differentiated and personalised curriculum to all our student's dependent on their needs, including a mixture of group and 1:1 learning as well as alternative provision. We work on preparing students for a transition to other schools and also for life in the workplace. All students in year 10, 11 and post 16 have access to work experience placements in the area of their chosen career pathway.

We ensure all students can access activities that we offer and adaptations to activities are made to fulfil this aim. For students to access the curriculum, lessons are differentiated and take account of individual learning needs. Priority is placed on student participation, as independently as is possible. Adults and students are clear about the learning objectives and outcomes of the lesson, class and individuals. At our Alternative Providers we provide them as much contextual information about students as possible, to ensure they can tailor their programmes to the needs of the students working with them.

Access to the School Environment

Our sites are open to all students that are able to access them, at times that are appropriate to them.

The school currently sites across two sites. A site on Cranbury Road, Reading and a Primary site in College Road in Earley. The Cranbury Road site has 7 classrooms, including a cooking room, office space, a canteen and Hall. This building has wide doors and wide corridors, with easy access through the front door. Doors to the external areas have a step down and therefore may cause some accessibility issue for those with issues with walking or in a wheelchair would only be able to make use of the front door. This could cause a problem if there is a fire in some areas of the building.

The primary building present building is not suitable for wheelchair users, and it not fit for purpose. If students or other persons were unable to access the spaces upstairs for therapy or meetings, we would move these into our downstairs spaces. Doors have handles at the top and at the bottom and some people may not be able to open the doors due their own needs. There is a wide gate to allow access to the garden and the garden is accessible to all.

Access to Information

All information issued by the school aims to be user friendly and is shared via newsletters, letters, email's and other forms of communication.

We encourage parents and professionals to take up the offer of having communications sent to them electronically as a way of reducing our carbon footprint. The school will provide information in alternative formats when required or requested. We will regularly provide information via email and text message to those that can access in this way.

Associated policies and plans

This plan should be read in conjunction with other relevant documents including

- Risk assessment policy
- Health and safety policy
- Equality information and objectives (public sector equality duty) statement for publication
- Special educational needs (SEN) information report
- Supporting pupils with medical conditions policy
