

2 March 2023

## **REF Bracknell Forest Ofsted Survey**

Dear Parent/Carer,

[Ofsted](#) and the [Care Quality Commission](#) (CQC) are visiting your area to understand more about alternative provision.

As part of their visits, inspectors want to know more about how needs are being met for children and young people who attend alternative provision. This includes pupil referral units, or outdoor learning centres.

This optional survey should take around 5-10 minutes to complete. Your answers will not contribute to any judgements, and we are not asking for any details that may identify you or your child.

Ofsted and CQC will use the evidence collected through surveys primarily to inform their final national report. Findings will not be attributed to any specific local area. We will also review survey responses periodically.

SmartSurvey will pass your information to Ofsted, and Ofsted will delete the information 1 year after the final national report is published, however the survey responses will remain anonymous at all times.

These survey links will be open from now until Friday 17 March 2023. The survey link is:-
