

**April 2025**

## Message from Mrs Willmott

Dear Parents and Carers,

We hope that you and your child has enjoyed being part of Cranbury College as much as we have enjoyed leading it this term.

We started the term with a visit from Ofsted and were exceptionally proud of the outcome of their visit. Following this we have kept the momentum going and have seen our year 11 students sit their mock exams impeccably and are getting ready for their actual exams that start very soon. Our exam timetable is attached for our year 11s and a timetable for the rest of the school will follow shortly.

We have also seen students achieving some great things, resulting in a trip to Go Karting, Nandos and Oakwood Climbing Centre. Our hospital provision have also been busy working hard in all subjects and our Primary have been getting active and creative across their topic work.

Also, a reminder that our school day is changing slightly on our return from Easter and we will be closing at 1pm on a Friday moving forwards.

Finally we say a sad farewell to Mrs Dziejulska-miles who leaves us to follow an exciting opportunity with Brighter Futures for Children, and Mr Holt who is off to look after sites elsewhere. We thank them for their hard work and dedication to Cranbury - they will be missed.

As always, thank you for your support.

Wishing you all a happy Easter break

*Mr Holt and Mrs DM have made a big impact to Cranbury College and we wish them well in their new adventures*

**Mrs Baggley – Deputy Head**

## Ready

This term we have had a real push on our students being Ready - Ready for the school day, ready for their learning and ready for their next steps. We thank parents for their continued support in ensuring their child/children arrive to school in their uniforms and would like to remind parents that students should also be bringing equipment to school ready to hit the ground running with their lessons. As the warmer months approach us, students are permitted to wear their Cranbury College polo tops or t-shirts along with shorts and trainers. Sliders/flip flops/Crocs are not suitable footwear and prohibit students being able to safely take part in extracurricular activities.

Students were involved in a Futures Drop Down Day this term where they engaged with an outside speaker from the company 'Fix Up'. Workshops were run throughout the day to students from both Key Stage 3 and 4 with the focus of helping students identify what skills they have and encouraging them to take ownership of their futures. The day running alongside our Careers Fair really supported our students in not only being ready for their next steps but also being aspirational in pursuing their dreams.

## Respectful

We have also continued with our new Praise and Reward system this term and we hope that your child has enjoyed their rewards for either the Bronze, Silver or Gold category. This is based on students being engaged in their learning and being respectful and safe throughout the school day. Students awarded the Gold category were taken to Oakwood Activity Centre to try bouldering and mountain boarding. This trip not only rewarded these students for outstanding conduct but also gave them the opportunity to work respectfully and safely as a team. They certainly looked like they had a great time!

Students also had the opportunity to work with a Booth Buss this term; a mobile music production facility that came to our Secondary site to give them the opportunity to foster their creativity and record their own music. At Cranbury College, we firmly believe that giving our community the opportunity to try new activities helps build their confidence and resilience and it would seem we certainly have some budding stars amongst our cohort.

## Safe

Finally, we would like to remind parents that we have a wide range of Interventions that we provide our students with here to support them in being the best versions of themselves. If you have any concerns regarding your child and wish to discuss their provision and how we may be able to support them further, please do not hesitate to let us know.

## Mrs Seymour – Assistant Head

### Ready

Our Y11 students completed their mocks ahead of their upcoming GCSE exams and were all fantastic throughout the two-week period. KS3 and Y10 were very accommodating and understanding through this period and managed to get into school and on with their learning despite the disruptions. Staff have had professional development around the use of visualisers to support the needs of learners and Seneca. Seneca is a completely free app that students are able to sign up for and use both in school and at home. The app has English, Maths, Science and many other subject courses that students can sign up to. This is a very helpful tool for supporting learning or aiding revision that we would encourage you to explore with your child.

<https://senecalearning.com/en-GB/>

### Respectful

During the recent student survey, students indicated that they would like a more varied curriculum so that they can diversify what and how they are learning. We have taken this on board, and as you will know by now, are implementing a new timetable after the Easter holiday that will now include Humanities on a rotation – History followed by Geography – and Creative Arts – Drama followed by Music. We appreciate the insightful feedback gained from students and use it to inform our planning as to ensure we are doing all that we can to best serve our students. Students have also had reports that holistically monitor behaviour and engagement with lessons. These have proved to be successful for most learners, with some achieving a platinum award of a trip off-site and a voucher. Well done to those students who consistently strive for excellence despite challenges along the way.

### Safe

Personal Development and Core Skills lessons have focused on equipping students with the knowledge and skills needed to make safe and healthy choices. Recent topics include understanding consent, maintaining positive relationships, and making informed decisions about health and wellbeing. By engaging in discussions and scenario-based learning, students are developing the confidence to navigate challenging situations safely and responsibly.

## Ms Albone – Associate Assistant Head

### Ready

At Primary, as we move into the Summer term we would like to remind you that pupils should be in school uniform every day, alongside PE kit (black t-shirt and shorts/jogging bottoms) and trainers/pumps.

On the Dolphin Ward, as we move into the Summer term and exam season, hospital staff are prepared to support any patients who are due to sit their GCSE and A-Level exams. The hospital team works very hard with the patient and their family along with their registered school to ensure that patients are able to sit their exams, it can be a very busy few weeks!

### Respectful

Primary have welcomed new pupils to our setting who have all settled well. The theme for this term has been all about Space and we have enjoyed learning together about space travel, the planets and galaxies in the skies above us.

Patient numbers at the hospital have remained quite high throughout this past term. There has been a wide range of topics taught to all year groups including a fun Superhero project. Patients have been looking at fables and the morals within them during PD lessons.

### PE Lessons

### Safe

In the past couple of weeks we have been reflecting upon our behaviours and making good decisions at Primary. If you can discuss this at home with your child to highlight the importance of working together.

Building positive relationships and creating a safe environment within the hospital ensures that our patients are able to engage successfully in their learning whilst providing a welcome distraction.

## Miss Kendall – School Business Manager

### Ready

We're happy to share that this term's Fire Drill at Secondary was a great success, with students demonstrating our core values.

Students responded quickly and followed the evacuation procedure, proving that they are ready to deal with emergency situations should they arise.

We have also continued to grow our vocational hub and extend the offer to support other local schools to meet the needs of their cohorts too.

### Respectful

During the fire drill, students listened to staff and instructions. They were extremely respectful to each other and to the staff.

Staff have also been working with students across all sites to develop a mutual respect for each other and their surroundings.

Next term we will be pushing forwards with our sustainability project, developing a respect for the environment and our surroundings.

### Safe

Students stayed calm and followed all safety arrangements.

We're extremely proud of their responsible behaviour throughout the drill.

We have begun taking steps already this term towards sustainability, with students making planters and growing their own vegetables. The students have learnt how to do this safely, using appropriate PPE and handling the tools with a responsible approach.

# Year 11 Timetable from 12th May
